FOUR STRIKES AGAINST THE ANTI-CHRIST

The first strike against the Anti-Christ will be when he tries to force the Muslim nations to worship the goddess of strongholds or fortresses. A person of the Muslim faith is not going to worship a woman even if they are told she was the mother of God and the queen of heaven

The second strike against the Anti-Christ will be when he demands the Muslims worship a trinity. They believe in only one god, not a trinity of gods. I am told that one of their prayers is ‘There is one God and Mohammad is His prophet.’

The third strike against the Anti-Christ will be the fact that he traces his lineage back to King David and because of this he will claim the right to sit on David’s throne in Jerusalem as the king of kings. You know how most of the people of the Muslim faith in the Middle East feel about the Jews.

The fourth strike against the Anti-Christ will be when he uses his influence to allow the Jews to tear down the Dome of the Rock so that they can rebuild the Jewish Temple. The Dome of the Rock is one of the Muslim’s sacred shrines and it occupies a prominent place on the Jewish Temple site. The Muslims believe it is the spot where Mohammad left the earth on his journey to visit their Heaven.

These are just four reasons why the Muslim nations to the south of Jerusalem, the Muslim nations to the north of Jerusalem and the Muslim nations to the east of Jerusalem are going to rebel against the Anti-Christ’s rule. Near the end of the Tribulation the nations to the south and to the east will join the nations to the north. They will organize a large army and invade the Promised Land with the intentions of overthrowing the Anti-Christ (Revelation 16:12-16). They will be led into battle by Iran (Gog and Magog) and some of the weapons used will be nuclear. Do you suppose that is why Iran is developing nuclear capabilities? We will give more detail and scripture dealing with this in the next article.
